

The 12th Experimental Chaos and Complexity Conference

ExperimentalChaosConference.org

A conference on experimental nonlinear dynamics

May 16 - May 19, 2012

University of Michigan,
Ann Arbor, USA

Topics Include

Hydrodynamics and Plasmas
Ecology, Evolution and
Epidemiology
Neuroscience and Physiology
Social Dynamics and Economics
Data Analysis
Complex Networks

Extreme Events
Energy systems dynamics
Earth systems science
Systems Biology
Electronics
Nano and quantum systems
Nonlinear optics

Organizers

Stefano Boccaletti
National Research Council, Italy
stefano@ino.it

Victoria Booth
University of Michigan
vbooth@umich.edu

Bruce J. Gluckman
Pennsylvania State University, USA
bjg18@engr.psu.edu

Celso Grebogi
University of Aberdeen, UK
grebogi@if.usp.br

Jürgen Kurths
Humboldt University Berlin, Germany
juergen.kurths@pik-potsdam.de

Marc Lefranc
University of Lille, France
marc.lefranc@univ-lille1.fr

Louis M. Pecora
Naval Research Laboratory, USA
pecora@anvil.nrl.navy.mil

Michał Zochowski
University of Michigan
michalz@umich.edu

Sponsors

University of Michigan: Michigan Meetings, Michigan Center for Theoretical Physics (MCTP), Departments of Physics and Mathematics, Center for the Study of Complex Systems (CSCS), Biophysics Program.

Michael Shlesinger, Physical Sciences Division, Office of Naval Research 331, Arlington, VA 22271.

Contact: Michał Zochowski (michalz@umich.edu) or Victoria Booth (vbooth@umich.edu)
