

Dear Candidate,

Congratulations on reaching a major milestone in your pursuit of a doctoral degree. As you prepare for the next challenging stage of your degree work, *The Dissertation Handbook* will be a helpful resource.

You are now embarking on the final and, in many ways, the most exciting stage of your degree work. We hope *The Dissertation Handbook* will make that journey smoother.

Rackham Academic Records and Dissertations
January 2017

**The Dissertation Handbook: A Guide to Submitting Your Doctoral Dissertation and
Completing Your Doctoral Degree Requirements**

by

Jane R. Doe

A dissertation submitted in partial fulfillment
of the requirements for the degree of
Doctor of Philosophy
(English Language and Literature)
in The University of Michigan
2017

Doctoral Committee:

Professor John D. Brown, Co-Chair
Professor Emeritus Ann A. Smith, Co-Chair
Dr. Alicia Gonzalez, Mellon Foundation
Assistant Professor Charles Z. Jones
Associate Professor Kathleen X. Lee, Yale University
Associate Professor Horace H. Rackham

DEDICATION

This edition of *The Dissertation Handbook* is dedicated to all doctoral students at the University of Michigan's Horace H. Rackham School of Graduate Studies.

ACKNOWLEDGMENTS

This version of *The Dissertation Handbook* was written by Assistant Dean John Godfrey, with extensive contributions by the staff of Rackham Academic Records and Dissertations.

PREFACE

The Dissertation Handbook answers many questions about submitting the dissertation to the Rackham Graduate School. Please note that the *Handbook* is correctly formatted.

ABSTRACT

The final steps for the completion of the doctoral degree entail preparing the dissertation for the oral defense, the conduct of the oral defense, and the submission of the final copy of the dissertation to the Graduate School. The *Handbook* presents the Graduate School's guidelines for preparing the elements of the dissertation, including format, requirements for citations and acknowledgment of sources and contributions of others, copyright permissions, and the use of images and other digital multimedia materials. The *Handbook* is organized and formatted in accordance to the requirements for the dissertation.

The *Handbook* also provides information about deadlines for conducting the oral defense and final submission of the dissertation. It outlines the steps for organizing the oral defense, the requirements of the composition the dissertation committee, and the responsibilities of its members.

The *Handbook* also includes information about the student's intellectual property rights to the dissertation and the requirements that the dissertation be made publicly available by submitting it to the University Library's digital archive, Deep Blue. It also presents the policy under which a student may postpone the public release of the dissertation.

CHAPTER I

The Dissertation

The dissertation is a document in which a student presents his or her research and findings to meet the requirements of the doctorate. It is a substantial scholarly product that represents the student's own work. The content and form of the dissertation are guided by the dissertation committee and the standards of the student's discipline. The dissertation may take a variety of scholarly forms, including a single monograph, or an ensemble of papers, essays, manuscripts or articles, and may incorporate digital media materials.

The student has the primary role in conducting the research and preparing the findings, and in authoring the dissertation. In some disciplines, it is expected that a dissertation will include co-authored papers. In this instance, and in all dissertations that include any collaborative work, the student must be the primary author and must explicitly acknowledge the contributions of others (see Chapter II, "Preparing the Dissertation, Citation and Acknowledgment of Sources.").

However the content is organized and presented, whether as a single monograph or as several papers or manuscripts, the dissertation should include an introduction and conclusion in which the student integrates the entire scope of the research that has been undertaken.

CHAPTER II

Preparing the Dissertation

Format

After the dissertation committee gives preliminary approval to the final draft of the dissertation, it must be formatted to meet the standards of Rackham Academic Records and Dissertations (OARD). These specifications, derived from standards used across institutions of higher education, ensure consistency in the preparation of dissertations for publication.

Students are urged to consult with the staff at [ScholarSpace](#) (206 Hatcher Library, 734-647-7406, scholarspace@umich.edu). Starting in winter 2017, ScholarSpace will make templates available for Rackham dissertation formatting requirements. ScholarSpace offers tutorials, template assistance, guides, and resources for dissertation and PDF preparation.

Dissertation formatting must follow these guidelines. Students should not use another dissertation or thesis as a model.

- Embedded fonts are required to ensure that all information used to make the document is stored correctly in the PDF file so that the dissertation will appear as it was created when viewed on a reader's computer. The text body should be in a standard professional-looking 12 point font designed for screen legibility. Standard fonts such as Arial, Times, or Times New Roman are recommended.
- Font size for footnotes, endnotes, captions, tables, figures and equations may be smaller than the font for the text body, generally 9 point.

- Font color must be black, although figures, tables, etc., may be in color.
- Line spacing is 1½ or double with the exception of tables, lists, quotations, footnotes/endnotes, figure/table captions or legends, and bibliographic entries, which should be single-line spaced.
- Margins are a minimum of one inch.
- The first page of each section (Acknowledgments, Dedication, Table of Contents, Lists, etc.), chapter, bibliography and appendix should start on a new page and have a two-inch top margin.
- The Bibliography or Reference section(s) may be at the end of each chapter or the end of the dissertation, in the format preferred by the discipline.
- Chapter numbers, chapter titles and the first page number for each are listed in the Table of Contents. The word “Chapter” must appear before each chapter number (or as a heading) in the Table of Contents and on the first page of the chapter.
- Arabic numerals are used consecutively for all pages following the front matter and starting with the first chapter, including appendices, bibliography, etc.
- Tables, figures, illustrations, etc., are uniquely and consecutively numbered throughout.
- If the dissertation includes more than one figure, table, illustration, appendix, etc., these should appear as separate lists following the Table of Contents, with a figure/table number, caption or legend, and the page number on which each begins.

- The title page has no page number, but each page of following front matter must be numbered with lowercase Roman numerals, starting with page ii, at the center bottom of the page. The front matter is in the following order:
 - Title page: mandatory; no page number (see Appendix A)
 - Frontispiece: optional; no page number
 - Identifier/copyright page: required; no page number (copyright optional, recommended)
 - Dedication: optional; must have page number (lowercase Roman numerals start here: ii)
 - Acknowledgements: optional (see following section); must have page number, lowercase Roman numeral(s)
 - Preface: optional; must have page number, lowercase Roman numeral(s)
 - Table of Contents: mandatory; must have page number, lowercase Roman numeral(s)
 - List of Tables, List of Figures, etc.: mandatory when more than one table, figure, illustration, etc.; must have page number, lowercase Roman numerals
 - List of Appendices: mandatory when more than one; must have page number, lowercase Roman numeral(s)
 - List of Abbreviations, List of Acronyms, List of Symbols: optional; must have page number, lowercase Roman numeral(s)
 - Abstract: mandatory; 550 word limit must have page number, lowercase Roman numeral(s)

Citations and Acknowledgment of Sources and Contributions of Others

Full and complete attribution of sources is central to professional academic integrity. All sources of information and materials that contribute to the research and writing of the dissertation must be properly acknowledged. Students are responsible for consulting with faculty advisors as they prepare the dissertation to make sure that citations and acknowledgments are complete and accurate. Sources that must be cited include, but are not limited to:

- language or wording either taken directly or paraphrased from another source, whether published or not, including online sources;
- concepts, interpretations, techniques, methods, test instruments or procedures borrowed or adapted from another work, whether published or not;
- charts, graphs or figures borrowed or adapted from another source, whether published or not;
- photographs, films, recordings, digital material or other images from another source; and
- data, surveys or results of any kind from any other inquiry or investigation.

In some fields, other kinds of information and material also must be cited: students are responsible for consulting with faculty advisors to make sure that all field-specific acknowledgment protocols are also followed.

The work that is the basis of a dissertation may be, either entirely or in part, a collaborative effort to which other graduate students, scholars, investigators or assistants make substantial contributions. Such contributions must be properly acknowledged. In general, contributions of co-authors must be identified and specifically described for each section of the dissertation to which they have contributed. How these acknowledgments are made varies by

field. Students are responsible for consulting with faculty advisors to ensure that contributions by others are completely and properly cited. Information about how to cite sources properly is available from [MLibrary](#).

Students who have received funding to support their dissertation work from an agency or foundation outside the University should indicate on the Acknowledgment page the source and form of the grant, e.g., NSF Graduate Research Fellowship, NIH National Research Service Award for Individual Predoctoral Fellows, SSRC International Dissertation Research Fellowship, Fulbright-Hays Doctoral Dissertation Research Abroad Fellowship, etc. Sources of internal funding may also be acknowledged.

Failure to cite and acknowledge all sources and contributions to the dissertation is a violation of academic ethical standards. As outlined in the Rackham Graduate School's "[Academic and Professional Integrity and Procedures](#)," such serious misconduct will result in penalties up to and including expulsion and rescinding a degree.

Abstract

The abstract provides an overview of the purpose and focus of the dissertation—the problem, research issues and questions—and a presentation of arguments, methods or procedures used. It should summarize the evidence, results or findings. An abstract of up to 550 words is required as part of the dissertation. At the final dissertation submission, the text of the abstract (with no special characters) is required to be entered into the online submission system.

Copyright Permissions and Fair Use

Copyright law protects original works of authorship. Copyright extends to published or unpublished materials in any medium of expression, including materials found on the internet. Copyright also protects poetry and music lyrics; dialog from a play, screenplay, broadcast, or fiction; music; graphic or pictorial works; and computer software. Once copyright protection has expired, however, original works of authorship may be used without permission. In general, copyright does not protect facts, data or ideas, which are exempt from the exclusive controls and protection of copyright. Similarly, the use of a limited amount of work that is otherwise protected by copyright is acceptable under the principle of “fair use.” For purposes that include research and scholarship, fair use allows limited use of copyrighted material without permission from the copyright holder.

Students are responsible for full compliance with proper use of copyrighted material and should receive written permission from the copyright owner for any material used in the dissertation that falls outside the guidelines of fair use. This includes reprints of a journal article that the student has authored or co-authored and is being submitted as part of the dissertation, for which the authors have transferred copyright to the publisher. Students should keep full documentation of every instance for which they have received permission to use copyrighted material.

For detailed information and answers to questions about copyright and fair use, including how to seek copyright permission, see [University of Michigan Copyright Information](#) and [Copyright and Your Dissertation or Thesis](#) from ProQuest/UMI.

Images and Multimedia Materials

It is recommended that images in GIF (.gif), JPEG (.jpeg) or TIFF (.tif) format that are embedded in the dissertation have a resolution of at least 300 dpi. Higher quality images will make the PDF larger in size and the final file will take longer to upload.

Generally, supplementary audio or video materials should be embedded in the PDF file of the dissertation. Preferred file types for video include Apple Quick Time (.mov); Microsoft Audio Video Interleaved (.avi); or MPEG (.mpg). Preferred file types for audio include AIF (.aif); MIDI (.midi); MPEG-2; SND (.snd); WAV (.wav). If media files are very large, consult with Rackham OARD at oard.staff@umich.edu about how these files should be made available.

Dissertations in Languages Other than English

If the primary literature on a subject matter is in another language, and the dissertation addresses a community of scholars who publish in a language other than English, a student may elect to write the dissertation in that language provided that all committee members speak and read the language and support its use in the dissertation. If a reasonably broad English-speaking community of scholars is actively pursuing the dissertation's general topic, the dissertation should be written in English. All dissertations must include an abstract and title page in English. A second title page in the language of the dissertation may be included, or the English title page may also include the title in the dissertation language underneath the English title.

CHAPTER III

Completing the Doctoral Degree Requirements

Final Dissertation and Degree Requirement Deadlines

Doctoral students must be enrolled for eight hours of candidacy during the term in which the defense takes place. The defense should take place no later than the last day of exams in that term to allow time ample time for content and format revisions.

Degrees are conferred three times a year. In addition to conferral that takes place during commencement ceremonies at the end of the Fall and Winter terms, degrees completed during the Spring/Summer term are conferred at the August meeting of the University Regents and are distributed by mail. All candidates who complete the degree requirements may choose to participate in commencement ceremonies at a later date. The student's name will appear in the commencement booklet for the term in which the degree is conferred. When a student participates in commencement in a later term, the student's name will not appear in the booklet for that term. Information on commencement appears on the [commencement website](#).

Rackham OARD publishes [annual deadlines by which a candidate must defend a dissertation and complete all degree requirements](#). The deadline for completing requirements so that the degree may be conferred in the same term is usually four to five weeks before the end of the term. Rackham OARD also publishes annual deadlines for candidates who defend after this date but before the last day of the term and complete all degree requirements, including final revisions, before a date early in the following term. These candidates will have their degree

conferred in the term in which they complete all requirements and submit final revisions, but will not be required to pay an additional tuition for eight hours of candidacy.

The date by which a candidate must complete and submit all degree requirements, including format revisions, is a firm date. Extensions are not permitted. A candidate who does not meet the final deadline cannot be listed among the degree recipients for that particular term, nor participate in commencement.

Wolverine Access allows students to keep track of their progress through the stages for completing their degree under the Rackham Milestones link. Candidates have an individualized Candidate Management page under the Academics section of the Student Center website. The Candidate Management page includes a Student Information Sheet which lists dates of degree completion requirements, including dissertation title and oral exam information. It also includes a Doctoral Degree Worksheet that displays the completion and receipt statuses of documents submitted to Rackham OARD.

Table III.1. Doctoral Degree Deadlines for Intended Final Term of Enrollment

		Last day to complete all requirements	Conferral date
Fall Term 2016	For diploma to be conferred in same term	November 14, 2016	December 18, 2016
	For diploma to be conferred in following term with no new registration	January 24, 2017	April 28, 2017
Winter Term 2017	For diploma to be conferred in same term	April 4, 2017	April 28, 2017
	For diploma to be conferred in following term with no new registration	May 22, 2017	August 18, 2017
Spring/Summer 2017	For diploma to be conferred in same term	August 4, 2017	August 18, 2017
	For diploma to be conferred in following term with no new registration	September 25, 2017	December 17, 2017

The Pre-Defense Meeting

A candidate must [register online to schedule a pre-defense meeting](#) with a representative of Rackham OARD. Choose either an in-person meeting with other students and OARD staff or the online option. To register, the candidate must provide the defense date, time, and location; and information about committee members, including e-mail addresses. This meeting must take place at least ten working days before the oral defense. Students attending in person may bring their formatted dissertation draft to the meeting or may e-mail a PDF of the dissertation draft to Rackham.predefense@umich.edu at least one week before the oral defense. Students completing

the meeting remotely may also submit a PDF of the dissertation draft to

Rackham.predefense@umich.edu at least one week before the oral defense.

At this meeting, the *Rackham Abstract and Dissertation Format Guidelines* will be reviewed along with the requirements and steps for completing and receiving the degree.

Oral defenses must be public events. Candidates must provide Rackham OARD with the date, time, and location, so that the information can be published. Requirements for the Doctor of Musical Arts include at least three public recital programs in addition to the defense.

Candidates do not need to make formatting corrections prior to the defense but, in order to participate in the next commencement, these must be completed along with other content revisions the committee requests before the published deadline for final submission.

Distributing the Dissertation and Abstract

At least 10 business days before the oral defense, a candidate should distribute copies of the dissertation and abstract to each dissertation committee member. A committee member who does not receive a copy of the dissertation and abstract at least ten working days before the defense may ask for a postponement.

Dissertation Evaluations

When the candidate registers for the pre-defense meeting, committee members will receive an e-mail with a link to the online dissertation evaluation and instructions for completing this. Committee members are expected to submit the dissertation evaluation at least three working days before the defense. Candidates should verify through Wolverine Access that all

evaluations have been completed. Once all are submitted, these will be made available online to all members of the committee.

Authorization of the Oral Defense

When all authorization forms have been received, Rackham OARD authorizes the oral defense.

A need for minor alterations will not affect authorization for the oral defense. If one or more committee member judges that major revisions are required, the dissertation committee chair (or co-chairs) will determine if the defense can proceed or whether further work is necessary before the defense can take place. The oral defense may be postponed, proceed as scheduled, or the committee will meet with the candidate to discuss the matter further.

Any disagreement over the acceptability of a dissertation will be resolved by the Dean of the Graduate School, who will act as final arbiter in consultation with the dissertation committee members.

Final Preparations for the Oral Defense

After Rackham OARD has authorized the oral defense, the Final Oral Examination Report will be available to the chair or co-chairs.

All members of the dissertation committee are expected to be present at the defense. If they are unable to be present, committee members are expected to notify the chair or co-chairs and the candidate at least ten business days in advance and to make necessary provisions for remote participation.

Dissertation Committee Representation at the Oral Defense

At least four members of the dissertation committee, including the chair or co-chair and the cognate member, must attend the oral defense. Attendance may be in person or by conference call or other remote access. The chair must sign the Final Oral Examination Report for any member who participates remotely. Additional information is in Appendix B, Table B.1, Reference Chart for Membership on Dissertation Committees.

Substitutions at the Oral Defense

If the dissertation committee chair cannot attend the oral defense either in person or by conference call, the candidate must either: (a) change the date of the oral defense; or (b) revise the dissertation committee so that it has two co-chairs rather than a sole chair. If option (b) is selected, the chair will ask one of the regular members of the committee to serve as co-chair. This member must be able to attend either in person or by conference call or other remote access. The candidate's program must submit the revised dissertation committee nomination to Rackham OARD. All committee changes must be approved by the graduate program chair, the committee chair or co-chairs, and Rackham. It must be submitted at least two weeks prior to the defense.

If a co-chair cannot attend the oral defense either in person or by conference call or other remote access, no changes need to be made as long as the second co-chair and three other committee members, including the cognate member, are able to attend or otherwise participate in the oral defense.

If the cognate member of the committee cannot participate, the dissertation committee chair and/or the cognate member who will be absent, together with the candidate, should seek a

substitute who qualifies as a cognate member (see *Rackham Graduate School Academic Policies*, section 2.1.2.2, Formation of the Dissertation Committee).

If it becomes necessary to make a substitution for a regular member of the committee, the committee chair and/or the committee member who will be absent, together with the candidate, should seek a faculty member in the candidate's program who is knowledgeable about the area of dissertation research and is of equal or higher qualifications than the member for whom he/she is substituting.

Responsibilities of Substitute Members of Dissertation Committees

A substitute member who attends the oral defense is not responsible for submitting an individual evaluation of the dissertation before the defense. This member participates in the writing and signing of the oral defense report, however, and passes on the comments and concerns of the committee member he/she is representing.

Responsibilities of Committee Members Unable to Participate in the Oral Defense

A committee member unable to participate in the oral defense may, if he/she wishes, communicate questions in advance to the chair for discussion at the oral defense. Members unable to take part must return the Dissertation Evaluation Form before the defense.

Under exceptional circumstances, an absent committee member may ask the dissertation committee chair to hold an additional and separate oral defense. The chair will incorporate the findings from this additional and separate defense into the final report of the oral defense performance.

The Oral Defense

Since defenses vary from department to department and from committee to committee, the candidate should consult the chair in advance about what to expect in the course of the upcoming oral defense. Many disciplines, for example, require the candidate to make an opening presentation. The candidate may be required to cover specific elements, topics, or issues in these presentations, which can be practiced beforehand. Candidates are urged to talk to the committee chair and to other faculty in their field about how awkward situations, such as disagreements among committee members, can be addressed tactfully while keeping the oral defense on track. While no time limit is set for an oral defense, the average defense takes about two hours.

Candidates may also choose to prepare by attending a few oral defenses in their own or related fields. Oral defenses are public events—the date, time and place of every defense are posted in the Graduate School’s lobby as well as on the OARD website.

Final Oral Examination Report and Certificate of Dissertation Committee Approval

The committee chair is responsible for printing, signing, and returning to Rackham OARD the Final Oral Report Examination within 48 hours after the defense but no later than 5:00 p.m. on the final doctoral degree deadline date. The student should confirm with the chair that the report has been submitted, which can be verified by checking the Candidate Management page in the Student Center in Wolverine Access.

Any disagreement over the acceptability of a dissertation will be resolved by the Dean of the Graduate School, who will act as final arbiter in consultation with the dissertation committee members.

**Post-Dissertation Defense Meeting:
Submitting Final Copies of the Dissertation and Other Materials**

Because doctoral degree deadlines are firm dates and extensions are not permitted, candidates must revise and correct the dissertation as soon as possible after the oral defense. The chair or co-chair of the dissertation committee must review and approve corrections and one of the co-chairs will complete the online Certificate of Dissertation Committee Approval indicating that all required revisions have been made and are acceptable. When corrections have been approved, the candidate should [register for a post-defense meeting](#), providing several possible meeting times. Alternately, the candidate may choose to have a [post-defense meeting via e-mail](#). For this option, candidates should contact Rackham OARD at oard.staff@umich.edu, and include their name, UMID, and the name of their program. The candidate must complete a post-defense meeting and all the materials listed below must be submitted and approved by 5:00 pm on the published doctoral degree deadline. At this meeting, a Rackham OARD evaluator will review the final digital copy of the dissertation to verify that it is in the correct format. Additional format revisions are often required before the final copy of the dissertation can be approved. Candidates should allow enough time to make these revisions before the submission deadline. No changes can be made to the dissertation after it has been submitted and approved by Rackham OARD.

A candidate who fails to submit these materials and have them approved by 5:00 pm on the day of the doctoral degree deadline may be required to register for another term and/or be awarded the degree in a later term. Candidates must submit final revisions to Rackham OARD

within one year of the date of the defense and remain enrolled each fall and winter term in which revisions are being completed. A candidate who fails to submit revisions by this deadline will be required to remain registered until the final corrections are submitted and to defend the revised dissertation.

Materials to be submitted to Rackham OARD at the post-defense meeting include:

- a complete, final, correctly formatted, PDF of the dissertation which will be the official copy of record and submitted electronically to the University Library's Deep Blue digital archive
- for Doctor of Musical Arts, three copies of recital programs
- application for graduation via Wolverine Access
- online NSF Survey of Earned Doctorates

Students are strongly encouraged to complete Rackham's online exit survey of doctoral recipients.

The candidate will be instructed about how to upload a PDF of the final corrected and completed dissertation, and asked to provide bibliographic keywords, or tags, that describe the content of the dissertation, including subject, concepts, theory and methods. Rackham OARD will transfer the final dissertation copy of record to the University Library's Deep Blue digital archive when the degree is conferred. When submitting the dissertation to Deep Blue, students may choose the option of also submitting it to ProQuest/UMI, the world's largest permanent archive of doctoral dissertations. Abstracts of dissertations submitted to ProQuest are listed with the Library of Congress collections and are published in Dissertation Abstracts International.

Optional Dissertation Binding

The student's program or committee may ask for a bound paper copy of the dissertation.

The following binderies are aware of binding standards for dissertations. The candidate's full legal name as it appears on the University transcript, the title of the dissertation, and the year the degree will be conferred should be stamped in gold on the spine of the bound copy, from top to bottom. If the dissertation consists of more than one volume, the volume number should be stamped on the spine of each volume. The front cover remains plain. Rackham approved

binderies are:

Finishing Steps

Candidates who indicated to Rackham OARD that they plan to attend commencement will receive information by e-mail and should check the University's [Commencement webpage](#) for detailed and up-to-date information. Diplomas may be picked up from the diploma area of the Registrar's Office until the week after commencement. Those who attend commencement in the term in which the degree is conferred receive the diploma at the ceremony. Otherwise, the diploma will be mailed approximately three weeks after commencement.

Any outstanding tuition, fees, or other charges must be paid to the University before the end of the term in which the degree is conferred. The diploma or an official transcript will not be issued until all charges are cleared.

CHAPTER IV

Copyrighting, Distributing and Publishing the Dissertation

Registering the Copyright of the Dissertation

The student retains all intellectual property rights to the dissertation. It is strongly recommended that copyright information be included on the mandatory Identifier page at the front of the dissertation. While the Graduate School does not require registering the copyright of the dissertation, the student may choose to do so. Because the decision to register the copyright varies among departments and individuals, candidates should discuss this with members of the dissertation committee. Students who submit their dissertation to ProQuest/UMI may request [ProQuest/UMI](#) to register the copyright in their name.

Publishing and Distributing the Dissertation within the University

With limited exceptions for dissertations that are embargoed (see next section), the Rackham Graduate School requires that every doctoral dissertation and abstract be made publicly available upon degree conferral. Candidates meet this by submitting the dissertation to Deep Blue, the University Library's digital archive, which makes dissertations available via the

Library's online catalog and Google Scholar. This arrangement does not prevent the candidate from publishing the dissertation later in parts or in its entirety.

Dissertation Embargo and Distribution Limitations

Doctoral dissertations and abstracts are normally made publicly available upon degree conferral when they are deposited electronically in Deep Blue, the permanent digital repository of the University Library. In limited circumstances, a doctoral student may wish to postpone public release of the dissertation. A student who is considering such a postponement, called a dissertation embargo, should discuss this option with his or her faculty advisor and the rest of the dissertation committee. The student is responsible for requesting an embargo of the dissertation, and the request must be approved by the chair (and co-chair, if any) of the dissertation committee.

Two dissertation embargo options are available.

1. *U-M-only access*. A student may choose to restrict access to the dissertation to members of the U-M community (those with a username and a Kerberos password) for up to one year from the date of degree conferral. The title and abstract will be displayed in online listings of the University Library, but the content of the dissertation will not be available to view or to download. At the end of the one-year embargo period, graduates may ask the Graduate School to postpone full public release for an additional year. Permission from the Graduate School is required to renew a deferral. Permission will be given only for specific reasons, such as the graduate's intention to publish work from the dissertation in a journal or book with a publisher that restricts consideration of manuscripts derived from dissertations that have been made available online. (Please note that most publishers do not have restrictive

pre-publication policies.) It is the graduate's responsibility to request a renewal of the U-M-only dissertation embargo. Permission is not guaranteed. Graduates may ask for up to two annual renewals, for a total of three years, of U-M-only access.

2. *Full restriction.* Dissertations that are fully restricted are not included in the online listings of the University Library and the title and abstract are not available to the public or the University Community. A student may seek permission from the Graduate School for an embargo that restricts all access to the dissertation for up to one year from the date of degree conferral. Permission will be granted only when:

- The student (or his or her collaborators) is applying for a patent on research contained in the dissertation and does not wish to make the contents public until the patent application has been filed; or
- The dissertation includes information that is covered for a limited period of time by a confidentiality agreement or contains third-party proprietary information.

A full restriction cannot be extended beyond one year. Unless the graduate requests and is granted permission for an additional year of U-M-only access, the dissertation will be fully released.

A student may independently choose among several levels of embargo for the copy of the dissertation that is deposited electronically with ProQuest/UMI.

APPENDICES

APPENDIX A

Doctoral Candidate's Reminders

Rackham Workshops

The Graduate School offers workshops that focus on various aspects of the dissertation process. Sessions address aspects of “doctoral life” such as forming the dissertation committee and dealing effectively with it, troubleshooting (e.g., coping with burnout, writer’s block, etc.), proposal and grant writing, the job search, and effective interviewing. Announcements and workshop materials are e-mailed to students monthly and also posted on Rackham’s website.

Use of Human Subjects in Doctoral Research

Federal regulations and University policy require that all investigations using human beings as subjects of research be reviewed and approved by an appropriately constituted faculty committee before such investigations begin. Please contact the U-M Office of Research’s [Human Research Protection Program \(HRPP\)](#) for details on how to apply for this review. No dissertation based on human beings as subjects can be accepted without this prior review and approval.

Dissertation Formatting Checklist

TITLE PAGE (see model in Appendix A)	
The title page does not have a page number.	
Is the dissertation title correct and in title case?	
Does your name match your name as it appears in Wolverine Access (<i>note: middle initial may be used instead of middle name</i>)?	
Is the name of your program correct and in parentheses (see example)?	
Is the year of degree conferral correct (<i>Note: MSTP students use year dissertation completed</i>)?	
Are members of the committee listed with complete and correct names and titles?	
Are the chairs/co-chairs of your committee identified and listed first in alpha order by last name?	
Are other committee members listed in alpha order by last name?	
Are committee members from outside U-M properly identified?	
Is the committee listed single-spaced?	
Is the top margin 2 1/2 inches?	
FRONT MATTER	
Frontispiece: optional; no page number	
Identifier/copyright page/ORCID iD: required (copyright optional, recommended)	
Is each page of the following front matter sections numbered with lowercase Roman numerals (starting with page ii on the optional Dedication), at the center bottom of the page?	
Dedication: optional; lowercase Roman numerals start here: ii There is no page i in the dissertation.	
Acknowledgments: optional	
Preface: optional	
Table of Contents: required (Table of Contents must not be an actual entry in the Table of Contents.)	
List of Tables: required when more than one table	
List of Figures: required when more than one figure	
List of Illustrations: required when more than one illustration	
List of Appendices: required when more than one	
Abstract: required, maximum 550 words	
MAIN BODY, APPENDICES, BIBLIOGRAPHY	
Is 12 point embedded font used in the main text?	
Is the font style standard and legible?	
Are tables, figures, illustrations, etc., clear, legible and labeled?	
Are lines in the front matter and main text 1 1/2 or double spaced?	

Are lines in the footnotes/endnotes, references or bibliography single-spaced, with a line inserted between each citation or entry?	
Is the legend/description of tables, figures, illustrations, etc., single-spaced?	
Does each section--front matter, chapters, appendices and bibliography--start on a new page?	
Does the first page of each section--front matter, chapters, appendices and bibliography--have a 2-inch margin?	
Are margins of body text at least one inch on the left, right, and bottom?	
Are all page numbers positioned consistently throughout the document?	
Are pages in the body text, appendices and bibliography numbered with Arabic numbers, starting with 1, from the first page of the first chapter?	
Are chapters, tables, figures, illustrations, etc., uniquely and consecutively numbered (i.e., Table 1, Table 2; Figure 1, Figure 2, etc.)?	
Are citations, references/bibliography complete, and are they formatted in the preference of your program or discipline?	
Do chapter titles and numbers match the Table of Contents?	
Does the caption/legend on tables, figures, illustrations, etc., match the List in the front matter?	

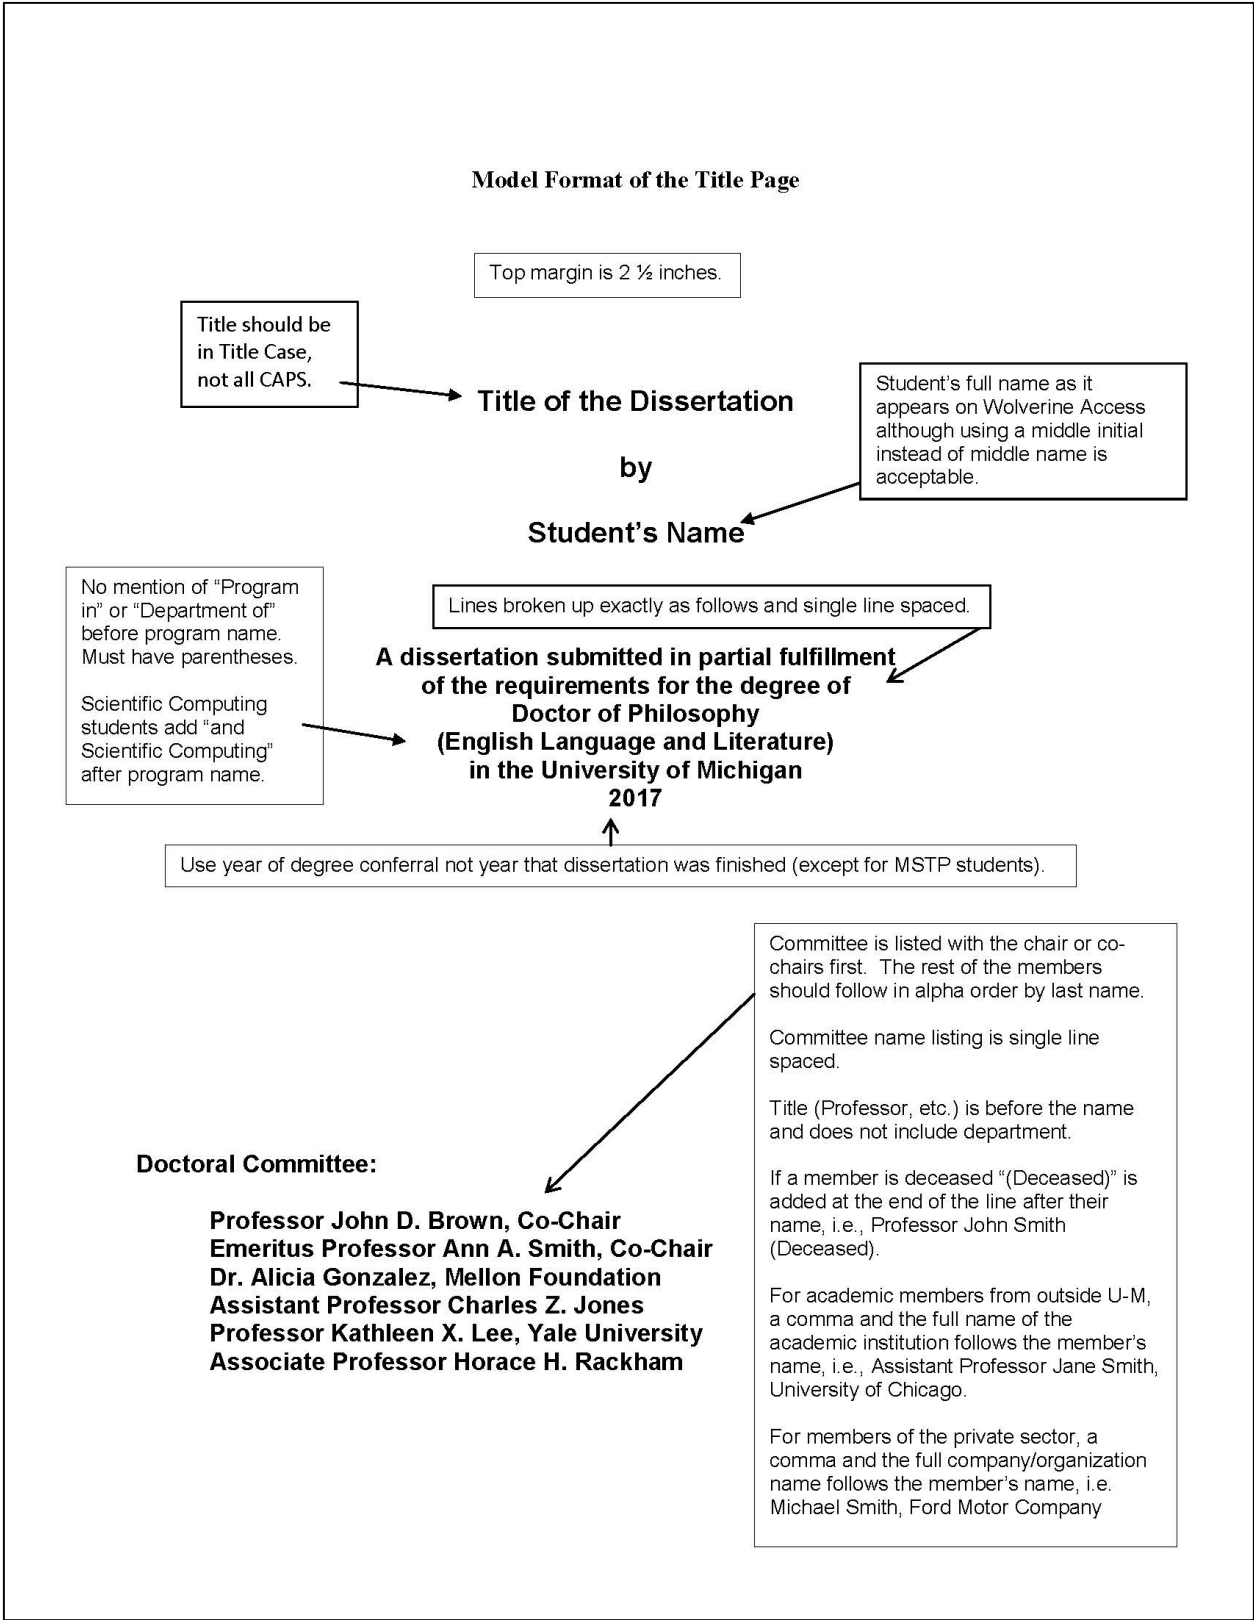

Figure 1 Model Format of the Title Page

APPENDIX B

The Dissertation Committee

Dissertation committee members should have specific and complementary knowledge of the candidate's area of research and be committed to providing regular and frequent feedback as the dissertation research and writing moves forward. Doctoral students must have their program submit a [Dissertation Committee Form](#) at least six months prior to the defense. Nominations must be signed by the graduate chair of the candidate's program, the committee chair(s) and the Rackham Graduate School. If the committee membership changes, the program must submit a revised form to Rackham OARD before the oral defense.

For dissertation committee purposes, the Graduate Faculty consists of all persons holding a regular or unmodified (i.e., not research scientist, clinical, visiting, adjunct, *emeritus/a* etc.) appointment at the University of Michigan as professor, associate professor, or assistant professor. Persons holding appointments as research professors, and research associate professors may also serve as members of a dissertation committee without requesting special membership.

Special membership requests for the dissertation committee are submitted with the [Dissertation Committee Form](#). Special members may include qualified persons who have other faculty, research scientist, clinical or staff appointments at the University of Michigan, as well as qualified people from outside the University of Michigan who may or may not hold academic

appointments. Special members should be able to demonstrate that their service on the dissertation committee will be a significant contribution. The nomination should be accompanied by a memo detailing the nominee's expertise in the dissertation topic and a curriculum vitae or résumé.

Nominations for dissertation committee service must be approved by Rackham and are subject to the following guidelines:

- Dissertation committees must have at least four members, including at least three members of the Graduate Faculty.
- At least two of the four members must be from the candidate's home graduate program.
- At least three members must have earned Doctorates and appointments as professor, associate professor, or assistant professor.
- Retired and *emeriti* professors who were affiliated with a Rackham doctoral program may serve on dissertation committees and may also serve as sole chair, co-chair, or cognate member. To serve as sole chair or cognate member, the [Dissertation Committee Form](#) must be submitted, accompanied by a memo from the retired professor confirming that he/she has:
 - experience serving on, and chairing, dissertation committees (decision-making experience as chair is required)
 - service as a teacher of formal courses or seminars
 - served as a counselor or advisor for doctoral students
- Persons who have not earned a doctorate, whether affiliated with a Rackham doctoral program or not, must be approved for dissertation committee service on a case-by-case basis. If approved, they may serve as chair, co-chair, or cognate member.

- No person working toward a doctoral degree may serve on a dissertation committee until all requirements for that degree have been met.
- Subject to review on a case-by-case basis, a committee may include other qualified University faculty and staff, or persons from outside the University who can provide expertise in the candidate's research area.
- Committees must have a cognate member who is familiar with the standards for doctoral research at the University of Michigan. The role of the cognate member is to broaden the scholarly representation of the dissertation committee beyond the candidate's home program and to provide a perspective on the quality of the dissertation from outside the candidate's field of specialization. Except for the committee of a student in an interdepartmental program, the cognate member must hold at least a 0.50 appointment in a Rackham doctoral program other than the student's home department/program, and may not hold an appointment as research or clinical faculty, instructor, or lecturer. The cognate member may not serve as chair or co-chair.
- A committee may have a sole chair or two co-chairs. The chair (or each co-chair) is responsible for guiding and encouraging the candidate's design and execution of an original, high quality, doctoral-level research project. With submission of a [nomination for special membership](#), retired faculty members who were affiliated with a Rackham doctoral program or research professors may serve as sole chairs. Eligibility is outlined in Table B.1.

For more information on the composition of the dissertation committee and roles of the members, see Table B.1 in this publication, Reference Chart for Membership on Dissertation Committees, and the [Guidelines for Dissertation Committee Service](#).

Changes in Dissertation Committee Membership

If a member must be added to or removed from a dissertation committee, the candidate's program must submit to Rackham OARD a revised [Dissertation Committee Form](#) reflecting the changes at least two weeks prior to the oral defense. It is the candidate's responsibility to be sure that all necessary forms have been completed and submitted.

Table B.1 Reference Chart for Membership on Dissertation Committees

Role	Sole Chair	Co-Chair	Cognate	Member
Full, associate, or assistant professor with earned doctorate and Rackham affiliation	Yes	Yes	Yes*	Yes
Research professors or research associate professors with earned doctorate and Rackham affiliation	With supporting documents	Yes	No	Yes
Full, associate, or assistant professor without earned doctorate but with Rackham affiliation**	With supporting documents	With supporting documents	With supporting documents	With supporting documents
Clinical professor with earned doctorate	With supporting documents	With regular member	With supporting documents	Yes
Instructor or lecturer with earned doctorate***	No	With regular member	No	Yes
Adjunct professor with earned doctorate	No	With supporting documents	No	With supporting documents
Research scientists, associate research scientists, assistant research scientists, research assistant professors or research investigators with earned doctorate	No	With supporting documents	No	With supporting documents
Retired/ <i>emeritus(a)</i> professor	With supporting documents	Yes	With supporting documents	Yes
Non-University of Michigan individuals with or without earned doctorate	No	With supporting documents	No	With supporting documents
University of Michigan non-regular faculty with or without earned doctorate	No	With supporting documents	No	With supporting documents
Committee member no longer employed at the University of Michigan****	No	With regular member	No	Yes
