Each year, your generous gifts are a critical source of financial support to graduate students at the University of Michigan. On their behalf, we are grateful for your help.

In this year’s Honor Roll, we proudly feature students who have benefited from the generosity of donors to the Rackham Graduate School. Please take a moment to read the stories that accompany their photos. These students are preparing themselves to make contributions of enormous promise to their fields of study.

The excellence of a great public research university centers on the quality of its graduate programs. Because you share our commitment to providing the best possible graduate experience for our students, you are an essential part of their success.

Thank you.

* Indicates that donor increased Fiscal Year 2010 giving over Fiscal Year 2009 giving.
Bold indicates that donor has given for at least five sequential years.
The Rackham Graduate School gratefully acknowledges gifts received between July 1, 2009, and June 30, 2010, from our alumni and friends.

Donors whose gifts were received after June 30, 2010 will be recognized in our next Honor Roll of Donors.

Corporate Matching Gifts play a vital role in our ability to provide student and program support. In this Honor Roll, we continue to credit each donor with his or her corporate matching gift. Therefore, you may find yourself listed in a higher giving range than expected.

If you discover any discrepancies with the listing of your gift or if we inadvertently omitted your name, please accept our apologies and help us set the record straight. We can be reached by mail using the form on page 24. You may also reach us by telephone, fax, and e-mail. Our contact information may be found on the last page of this report.

Thank you again for your generous support of graduate education at the University of Michigan.

STUDENT PROFILE

Eunice Muriu
Master’s in Nursing
Rackham Research Grant

Eunice worked in the University of Michigan Hospital and Health Services as an R.N. in an Orthopedic/Trauma unit. She has a great interest in the development and advancement of nursing in low income countries, especially in Africa. For her research, she traveled to Kumasi, Ghana, to study upper year midwifery students at Komfo Anokye Teaching Hospital in Kwame Nkurumah University of Science and Technology (KNUST). The data collected will build on an ongoing scholarly work with medical, nursing, public health, and dental students in Ghana as part of a larger initiative, The Michigan-Ghana Charter, a Bill and Melinda Gates Foundation project. Rackham funding allowed her to travel to Ghana to collect data for her project.

**STUDENT PROFILE**

**Ivy Tso**  
Ph.D. Student in Clinical Psychology  
Barbour Scholar

Ivy’s degree focuses on socio-emotional functioning in schizophrenia. She uses neuroscience research methods to investigate how the brain processes social and emotional information in schizophrenia, in order to inform and evaluate the development of effective treatment options for the disorder. After completing her degree, she plans to seek employment at a university in Hong Kong to promote clinical neuroscience research and evidence-based clinical practice for severe mental illnesses. Rackham funding enabled her to focus on her doctoral research and dissertation writing before her clinical internship next year.

STUDENT PROFILE

Brian Hilligoss
Ph.D. Student in School of Information
ProQuest Dissertation Writing Award

Brian’s research explores problems pertaining to communication and coordination within complex organizations. His dissertation examines the handoff of responsibility and information that occurs between physicians when patients are admitted to a hospital from an emergency department. His work has been awarded a Health Services Research Dissertation Grant from the Agency for Healthcare Research and Quality. Rackham funding allowed him to focus full-time on his dissertation research for one semester.

STUDENT PROFILE

Zhaohuan Zhu
Ph.D. Student in Astronomy
Rackham Predoctoral Fellowship

Zhaohuan was born and raised in Southwest China. After receiving his Bachelor’s degree in Astronomy from Peking University, he came to Michigan to pursue his Ph.D. He is studying how planets form. He uses a special kind of young stellar objects whose inner regions have been cleared by planets to constrain early planet formation. He found dust in these systems is significantly depleted, which may suggest planets are built from bottom-up, starting from dust growth. Rackham funding allowed him to focus on his research, with some of his findings submitted to an astrophysical journal.

STUDENT PROFILE

Todd Pugatch
Ph.D. Student in Economics
Rackham Predoctoral Fellowship

Todd earned a B.A. in Economics and Spanish from the University of North Carolina at Chapel Hill and worked at the World Bank in Washington, D.C., before coming to Michigan. His dissertation examines the transition from school to work in South Africa, focusing on how youths make human capital investment decisions in an environment of high unemployment, high grade repetition, and persistent racial inequality. Rackham funding allowed him to focus on writing his dissertation.

STUDENT PROFILE

Phillip Christopher
Ph.D. Student in Chemical Engineering
Rackham Travel Grants

Phil received his B.S. degree in Chemical Engineering from the University of California, Santa Barbara. His dissertation research has focused on designing catalytic materials that facilitate energy efficient, environmentally friendly production of useful chemicals and fuels. Currently he is focusing on designing materials that utilize solar energy to drive important industrial chemical reactions that have previously required fossil fuel based energy. Rackham funding helped Phil travel to domestic and international conferences to present his work.
