Notes: "Advanced to Candidacy terms" (the terms in which a student is first eligible to register as a candidate) are not counted.

Detached study terms are not included since students are not registered while on detached study status.

AMusD degrees are not included.

Programs with only one Ph.D. recipient in this time period are not shown.

The term counts in this report include all of a student's possible or actual registered fall and winter terms within the time frame beginning with the student's first term of registration in a Rackham program up to the term of advanced to candidacy, regardless of the academic career or the program level of the registration.
